

## **Peterborough Arena – Premises License application**

### **Points to note:**

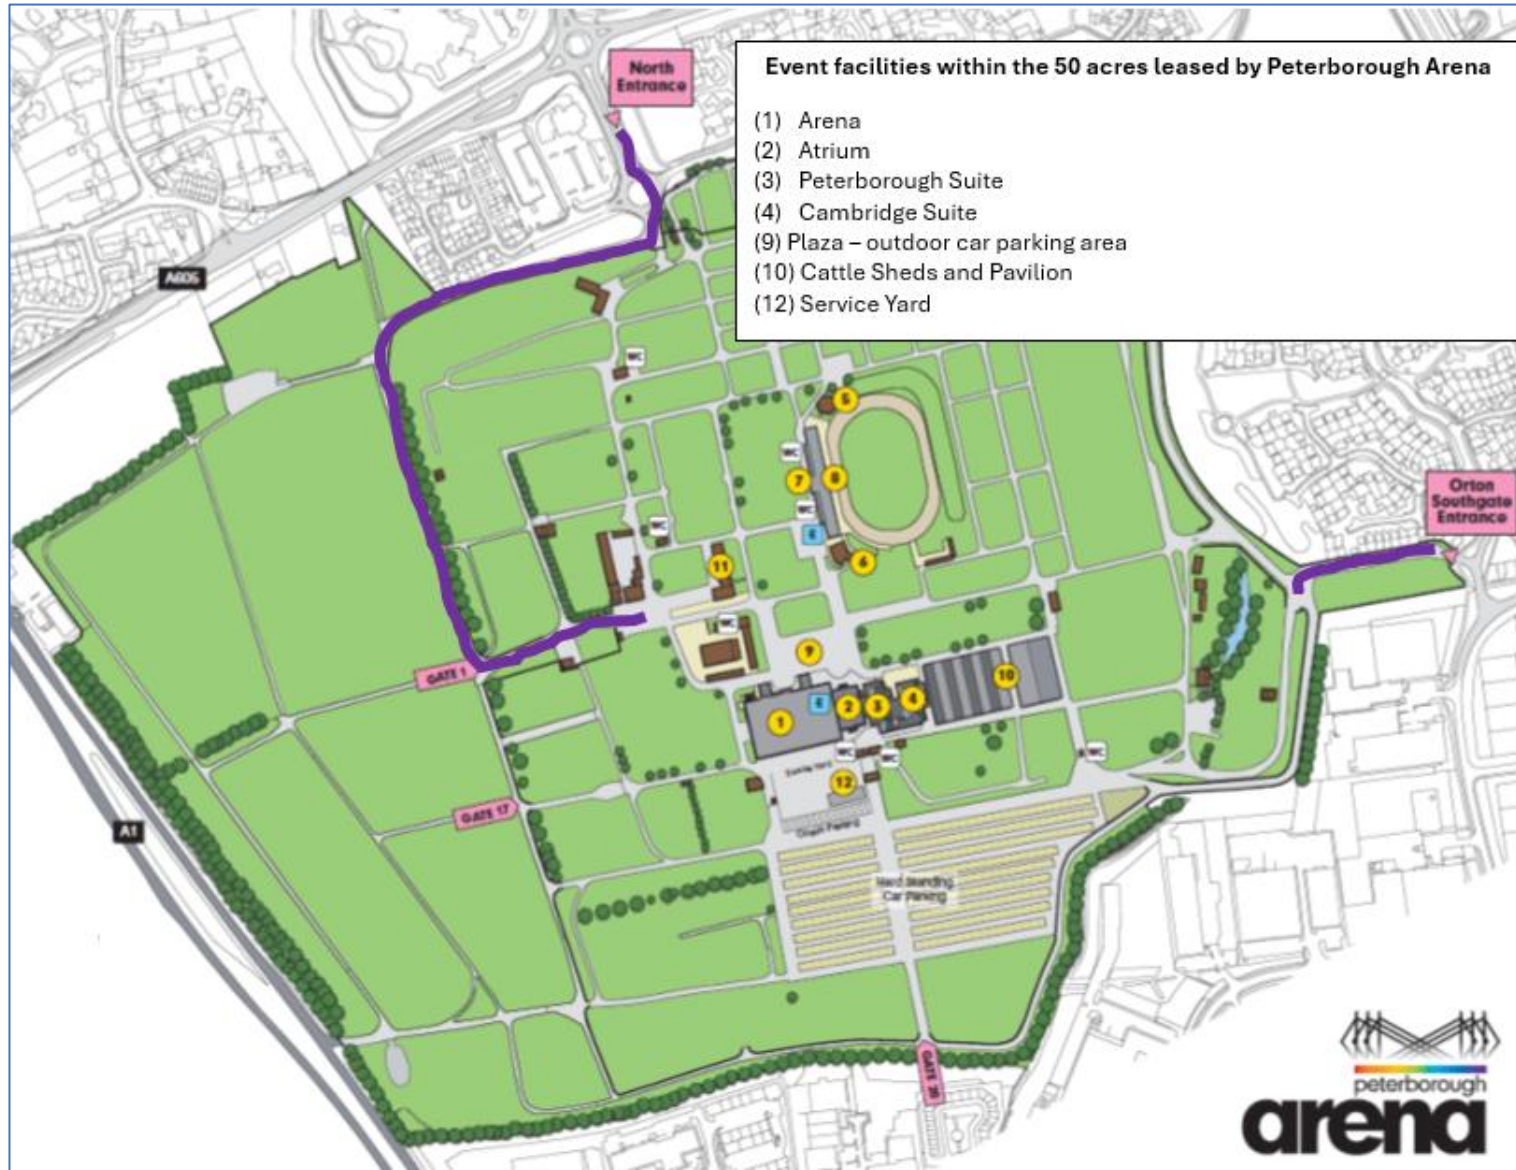

- Premises License application applies only to the 50-acre area which encompasses the indoor Arena; Atrium; Peterborough Suite; Cambridgeshire Suite; Pavilion; and surrounding outdoor car parking and some grassed areas as marked within the 50-acre red line boundary
- Access to the area for which the Premises License is being submitted is both through the site from the North Entrance, off Joseph Odam Way; or via Dunblane Drive entrance. Both entrances have historically been used for large-scale events
- The principal buildings within the applied licensed area are flexible multi-purpose event halls. They contain no permanently installed stages, seating layouts, bars or entertainment facilities. Internal layouts vary according to the requirements of individual events and are managed through event-specific risk assessments, Event Management Plans and fire safety arrangements.
- Event Management staff are included on Safety Advisory Group (SAG) meetings as required
- Most events are held and organised by third parties who hire the site as a venue. They in turn request the internal set-up of the areas they have hired, as well as fire safety, organising traffic management, security, catering, etc
- Cattlesheds – apologies the shown plan is very basic, but each individual shed is approx. 8m wide by 60m long. I have attached a photo of the inside to give you an idea, but these are very much agricultural in build as they used to house the Cattle and Sheep during the annual East of England Agricultural Show.

Land Registry plan which shows the 50-acre section (as outlined in red)  
to which the Premises License would apply

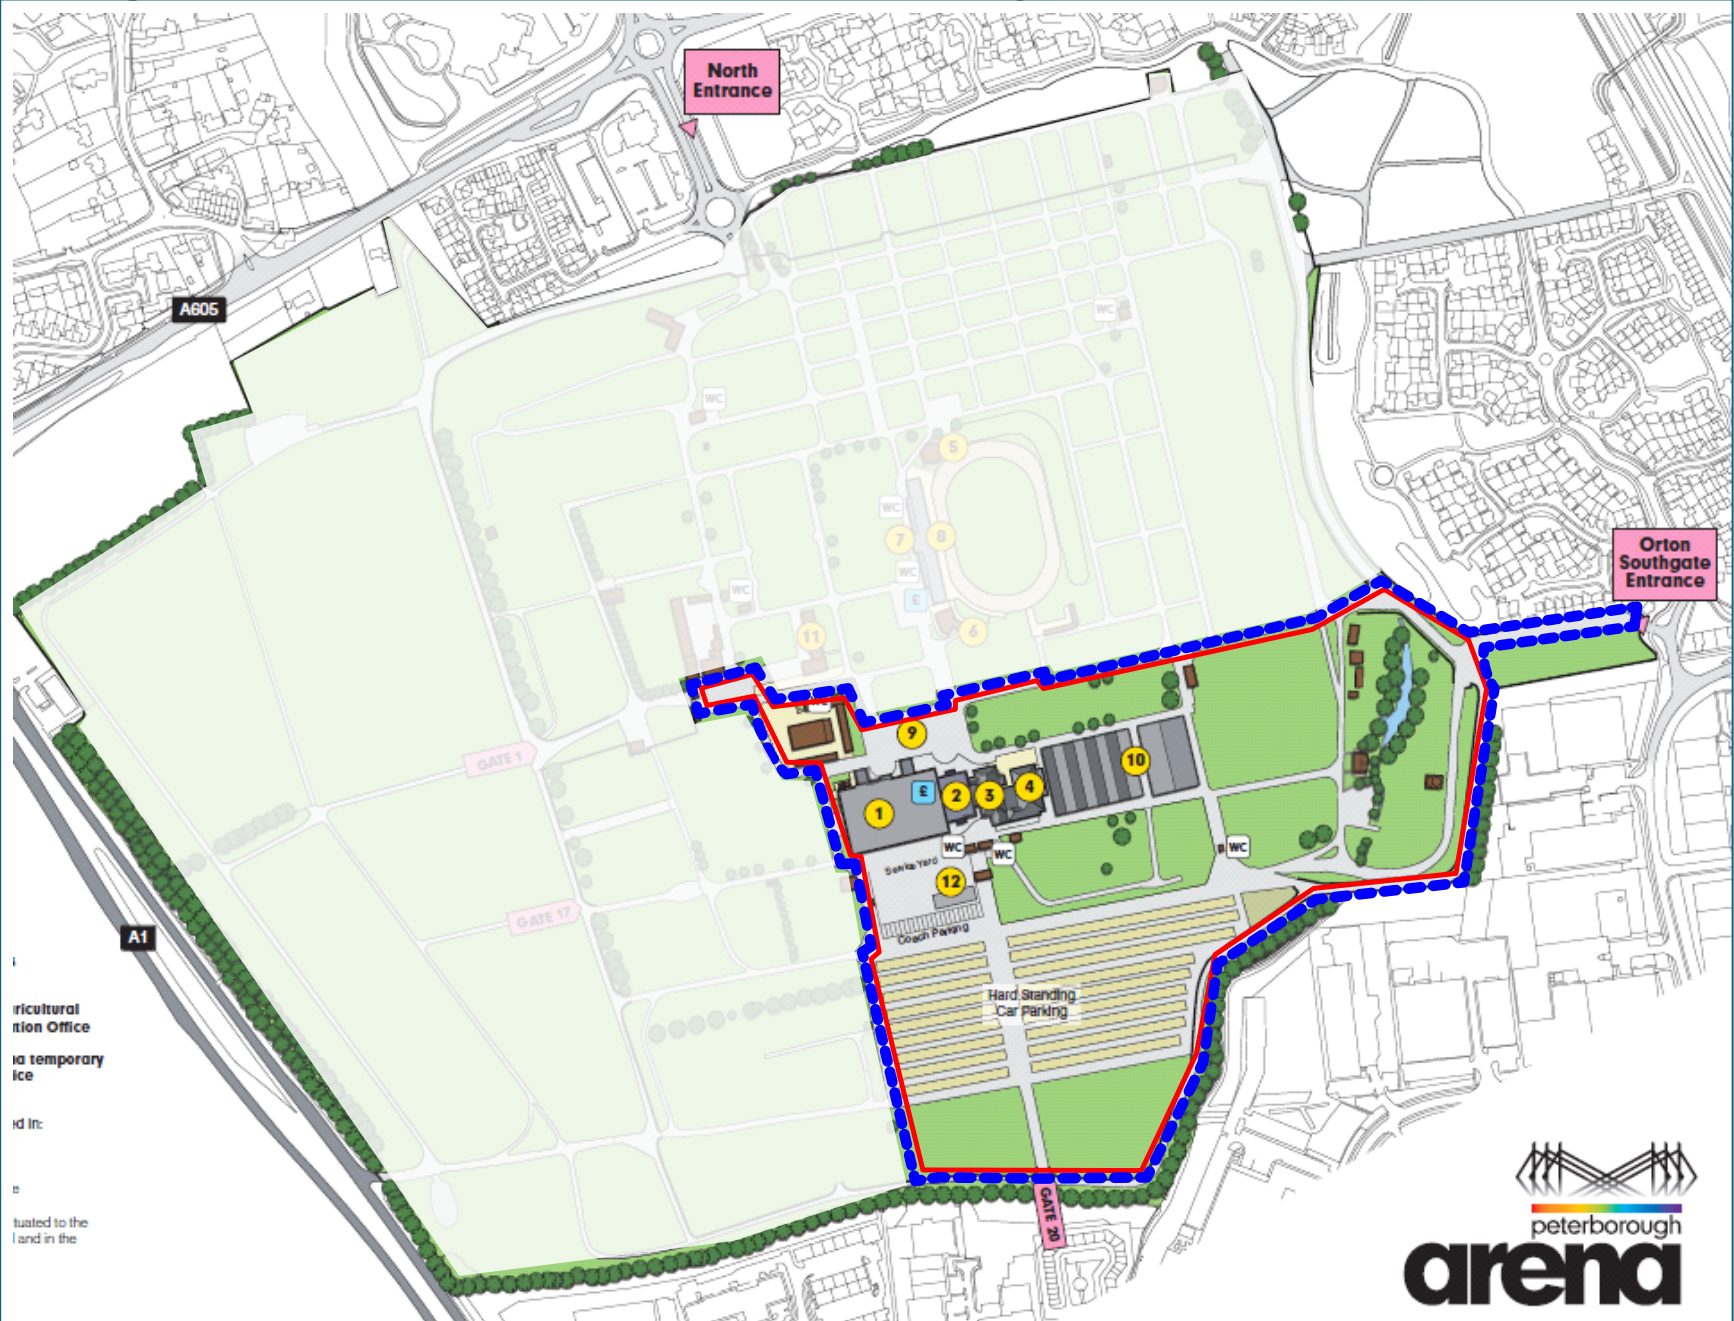

## Site access from North Entrance and Orton Southgate Entrance

Lines in purple represent the two access routes to the 50-acre site for Premises license.

- Through the site via Joseph Odam Way, off Oundle Road
- Through Dunblane Drive
